- Advanced Academic is a short course (18 hours) designed to support PhD candidates' writing skills.
- It is not a remedial English course – the focus is on enhancing existing academic writing and language skills.
- Course content will have both a global and individualised focus.
- Global content of the course will include support for overall advanced academic writing, e.g. textual coherence and cohesion, expressing meaning in precise, nuanced ways, and differing writing styles, including critical writing, argumentative and persuasive writing etc.
- Individualised content provide targeted support for individual course participants based on needs analysis.
- The approximate CEFR level for students on this course is C1.
